This book is about the devastating affects in adulthood of having mainstreamed a Special Ed disabled individual into the normal world. There are many parents out there that see their kids doing well in Special Ed that arent well enough off to be in the regular classroom setting that think if they drill them to death for hours on end for years on end that if one day they catch up with everybody else and make the same grades everyone else does in the normal world they will suddenly be able to do any and every job out there every one else is able to do. Unfortunately, this is what happened with me and when I got out in the work world I found out I still was not able to figure out the hands on tasks at the jobs I had I was expected to perform because I was absolutely clueless as how to perform them or what was going on, and could not sequence my tasks well enough or fast enough for my employers. It took me six months to learn what everyone else learned in a week and it made them upset. My education and even the so called social skills out there people think help make you make it in the work world were of no use to me because what works in the world of school does not work in the world of job. No matter how well you educate a person, or how well they do in school, they still do not know how to perform the tasks of every day jobs that everyone else knows how to perform. Your social skills in the...
