The myth of fossil fuels and peak oil has been a part of the North American lifestyle for almost 100 years. Beginning first in the schools, children are anxious for an education but instead are indoctrinated to believe this deception. As a student grows up they hear the same message propagating through governments, media and various interest groups, eventually accepting it as a scientific fact. But the truth is now within your grasp in finding this book. In *Oil, The 4th Renewable Resource*, you'll learn: o How the myth of fossil fuels begins. o How oil corporations are taking advantage of this myth. o The beginning of the abiotic oil theory in 1877. o How the myth of global warming and oil corporations go hand in hand. o Which renewable resource is the best. o And what actions you can take to affect change in the schools and government policy.
