

Refining technology (general higher second Five-materials)

Filesize: 8 MB

Reviews

Unquestionably, this is actually the very best job by any article writer. I have read and that i am certain that i am going to planning to go through once again once more in the foreseeable future. I realized this publication from my i and dad advised this pdf to find out. (Rusty Hamill Sr.)

REFINING TECHNOLOGY (GENERAL HIGHER SECOND FIVE-MATERIALS)

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 295 Publisher: China Petrochemical Pub. Date :2011-08-01 version 1. WANG Lei. Li Huipeng edited refining technology describes petroleum its products composition and nature; petroleum product application and latest Specifications; major oil refining process and the main process equipment at home and abroad the latest technological advances and technological progress. Refining technology has some systematic, informative and professional depth, and practical. For non-oil processing graduate of the technical management of cadres and production line workers to read. for oil Yuanjiao oil processing and non-oil processing professional students to use learning. is also available in oil processing technology and management staff for reference. Contents: Chapter petroleum chemistry section of oil elemental composition and the distillate composition II oil and petroleum distillate hydrocarbon composition of the third quarter of oil in the non-hydrocarbon compounds. Chapter petroleum and its products. the physical nature of the Section vapor pressure. boiling range and average boiling point II density. average density. feature factor and the average molecular weight of the third quarter viscosity and viscosity-temperature properties of IV Thermal Properties Chapter petroleum products classification and petroleum fuel use requirements of Section Oil Category II petroleum fuel use requirements Chapter crude oil distillation section of crude oil desalting dehydration Section distillation and rectification works the third quarter crude oil atmospheric and vacuum distillation of the fourth quarter of crude oil distillation equipment corrosion V often reduced pressure device energy and energy Chapter FCC Section Overview Section FCC chemical reaction fourth FCC catalyst V cracking catalyst auxiliaries Section VI catalyst formula design Section VII catalyst Deactivation and Regeneration Section VIII operating parameters on catalytic cracking reaction IX catalytic cracking unit composed of Section X regeneration process Chapter...
